## 2008 *Report to the Community*

## The Red Cross In Our Community

### *Disaster Relief and Community Disaster Education*

When a disaster threatens or strikes, the Red Cross is there. This year we responded to 22 local disasters. We helped 187 affected individuals and families with emergency food, shelter and supplies.

Because being prepared can make your family and community safer and sometimes minimize injury and destruction, we presented disaster education information to businesses, organizations and community events, showing 2,500 individuals how to Be Red Cross Ready for disaster

### *Health and Safety Services*

From first aid, CPR and AED training to swimming and lifeguarding, American Red Cross programs help people lead safer and healthier lives. This year, 4,225 individuals learned lifesaving skills through classes offered by the chapter.

### *Armed Forces Emergency Services*

The American Red Cross provides communication between those in the Armed Forces and their families. We have a worldwide network that reaches service members wherever they are to communicate a birth, death or illness. This year we provided emergency connections and other support services for 116 military families.

### *Blood Services*

Every two seconds, someone in the United States needs blood. Thanks to generous blood donors, the Red Cross collects and distributes nearly half the nation's blood supply. Over the last year, we collected 5,401 units of blood.

### *A Note About Volunteers*

We depend on volunteers of all ages and backgrounds to carry on our work. Volunteers constitute 97 percent of our total workforce, serving as members of the board, instructors teaching lifesaving skills, disaster action team members, office administrators, event organizers and more.
